HOME SCHOOL LEARNING

Thank-you to everyone who collected learning packs from the school and to all your efforts and the children's efforts at completing work at home.

Our daily life patterns have become very different and we understand the pressures facing parents and children with home learning.

The work in the packs and the recommended activities from the children's HOME LEARNING pages on the school's website will help the children keep engaged in learning. However, please do not get overwhelmed with the work. Keep everything in balance and just try your best. Try to maintain home learning as part of the daily routine and don't forget the value of things like regular exercise, playing games, reading, baking, helping at home and even watching TV.

Keep reading our website and checking the HOME LEARNING area as we may put up new information or links to websites etc.

Thank-you for your support and cooperation – this is an unprecedented event and we are all going through this together!

TIN WHISTLE

Mrs Campbell has added a document to the home page of the school's website which provides excellent information and links to help children who want to keep practising the tin whistle.

EASTER HOLIDAYS

This week is Holy Week and was meant to be the beginning of our Easter Holidays. The story of Easter is normally taught with all classes so we have added 'An Easter Story' link to the homepage of the school's website which simply tells the story of Easter.

We wish you all a happy and peaceful Easter and continue to keep in our thoughts those who are sick, the healthcare professionals and all other key workers.
